

# Your Athletes Fight for Wins.

# We Fight for Their Health.

## The Hidden Threat in Combat Sports

Whether you're coaching wrestlers, training MMA fighters, or managing a martial arts studio, one thing is constant: **direct contact, constant sweating, and shared surfaces.**

This creates the perfect storm for dangerous pathogens like:

- **MRSA** – antibiotic-resistant, highly contagious
- **Staph infections** – painful, sometimes life-threatening
- **Ringworm** – fast-spreading fungal infection
- **Herpes Gladiatorum** – HSV-1 spread by mat and gear contact

**Genesis 360™  
InRoom Mist + a  
100% botanical  
disinfectant**

Engineered for the unique challenges of the hand-to-hand combat sports environment, our system utilizes advanced micro-fluidization nozzle technology designed for botanical disinfection.

*Created by coaches for athletes*

## Introducing Genesis 360™ InRoom Mist, Powered by 100% botanical disinfectants

- ✓ **360° dry misting:** Coats mats, gear, lockers, and walls — even under and behind equipment.
- ✓ **No moisture buildup:** Safe for electronics, quick to dry, no slip hazards.
- ✓ **No chemicals:** We recommend a 100% botanical, EPA-registered, and safe for daily use disinfectant
- ✓ **No human error:** Automated cycles eliminate missed spots and cut down on labor costs.

### The Risks Without Protection

- Missed practices ruin momentum
- Outbreaks force team disqualifications
- Health scares hurt recruiting and membership
- Parents lose confidence in your safety standards
- Athletes risk permanent skin damage and long-term complications

### The Genesis 360™ Difference

**Safe. Smart. Automated.**

- ✓ Disinfect mats, gloves, pads, gear, and air
- ✓ No residue, no strong odors — just clean, safe spaces
- ✓ Cost-effective operation, fewer sick athletes = more revenue
- ✓ Designed for wrestling rooms, MMA gyms, martial arts dojos, and competition arenas
