

Revolutionizing Disinfection: Secure Logic's Genesis 360 Misting System Powered by BotaniMax®

Secure Logic leads the way in innovative disinfection solutions with its state-of-the-art Genesis 360 Misting System, engineered to deliver BotaniMax's® botanical disinfectant effectively across a wide range of environments. This pioneering technology ensures maximum coverage and deeper cleaning with minimal effort.

Why the Genesis 360 Misting System with BotaniMax®?

Patented Technology: Features a unique dry misting process that disperses BotaniMax® in ultra-fine droplets, ensuring thorough coverage and rapid action.

Broad-Spectrum Efficacy: Utilizes BotaniMax's® powerful botanical formula to significantly reduce airborne and surface pathogens, including viruses, bacteria, and fungi.

Eco-Friendly and Safe: Composed of 100% botanical, minimal-risk ingredients, making it safe for people, pets, and plants while supporting sustainability.

Core Benefits

Enhanced Air Quality: Dramatically improves indoor air quality by reducing pathogens and allergens.

Extended Protection: Provides long-lasting disinfection, keeping environments safe and sanitized for longer durations.

Versatile Applications: Ideal for use in diverse settings from residential homes to large commercial buildings and healthcare facilities.

Experience the future of disinfection.
