

Outbreaks Don't Care About Game Day.

Disinfect Like Wins Depend on It.

Where Athletes Grind, Pathogens Linger.

Every day, your athletes move through high-contact spaces: Locker rooms. Weight rooms. Dugouts. Sidelines. Shared gear and training tents.

These environments can harbor serious pathogens, including:

- **MRSA and Staph** – spread through pads, cleats, gloves, and benches
- **Ringworm and fungal infections** – thrive in sweat-soaked gear and damp locker rooms
- **Norovirus** – easily transferred via shared surfaces and hydration stations
- **Respiratory viruses** – circulate in tight spaces like team tents, buses, and film rooms

**Built for outdoor sports,
Genesis 360™ uses
microfluidization nozzle
technology to evenly apply
a 100% botanical
disinfectant across gear,
benches, locker rooms,
dugouts, and other shared
surfaces.**

Created by coaches for athletes

Introducing Genesis 360™ InRoom Mist, Powered by A 100% Botanical Disinfectant

- ✓ **360° dry misting:** Wraps around gear, lockers, cleats, benches, and walls — even under/behind equipment.
- ✓ **No moisture buildup:** Safe for electronics, quick to dry, no slip hazards.
- ✓ **No chemicals:** Use a 100% botanical, EPA-registered, and safe for daily use.
- ✓ **No human error:** Automated cycles eliminate missed spots and cut down on labor costs.

The Risks Without Protection

- ✗ Skin infections from shoulder pads, cleats, and benches
- ✗ Cross-contamination between games and practices
- ✗ Missed training due to athlete illness or infections
- ✗ Locker rooms, weight rooms, and dugouts that look clean — but aren't disinfected
- ✗ Damage to program reputation when outbreaks reach sponsors, press, or recruits

The Genesis 360™ Difference

Safe. Smart. Automated.

- ✓ Locker rooms, dugouts, sideline tents, and recovery areas are fully disinfected
- ✓ Gear, cleats, gloves, and benches get 360° dry mist coverage
- ✓ No slip risk, no chemical exposure — just safe, fast disinfection
- ✓ Portable and fixed systems available for daily use
- ✓ Protects athletes and your staff

Protect Your Players. Protect Your Program.
