

Safeguard Your Fitness Center from Invisible Threats

Health clubs, fitness centers, and athletic facilities, including weight rooms and dressing rooms, are breeding grounds for bacteria, staph, MRSA, and athlete's foot. Maintaining a clean and sanitary environment is crucial to protecting the health and well-being of your athletes and members.

Benefits of the Genesis 360 System

- **Control Pathogens Completely:** Contains bacteria, staph, MRSA, and athlete's foot.
- **Cover Every Inch:** Ensures thorough cleaning of all surfaces.
- **Effortless Automation:** Easy to use and integrates with your facility's existing infrastructure.
- **Breathe Clean Air:** Improves indoor air quality by reducing pathogens and allergens.
- **Stay Protected Longer:** Provides long-lasting disinfection for up to 30 days.

The Genesis 360 Misting System uses advanced micro-fluidization technology to create ultra-fine droplets that thoroughly disinfect and clean all surfaces. It integrates seamlessly with your facility, ensuring that every corner, from weight rooms to dressing rooms, is free from harmful pathogens.
